

University of Manitoba Security Services Monthly June 2025

UM SAFE APP

UM Safe is an essential tool that sends safety alerts and provides instant access to campus safety resources. The app includes features such as “Work Alone” and “FriendWalk”, as well as a Mobile BlueLight feature similar to the stationary blue lights on our campuses.

Some of the app features involve interaction with Security Services, and some will be optional — while other features have no interaction with Security Services.

Used by hundreds of higher education institutions and millions of people around the globe, the app was developed by App Armor and is custom branded for the U of M.

The free mobile safety app for students, staff, and faculty is available for iPhone (App Store) and Android (Play Store) devices.

The Mobile BlueLight button will only contact Security Services when the person is within the campus Safe Walk boundaries. If outside of the Safe Walk boundaries, the Mobile BlueLight notification will go to 911.

Safety Tips for Swimming

Lakes, beaches, and rivers are popular summer destinations. They're the best way to have fun with friends and family and remain cool as temperatures rise. Consider the open-water safety tips below if you go swimming on your next vacation.

- [Swim in a Designated Swimming Area](#)

Never swim outside those defined areas. Also, preferably swim under the supervision of a qualified lifeguard.

- [When in Doubt, Get Out](#)

Whether the current is getting rough, rain has started to fall, or your body is not responding like it should be due to fatigue or muscle cramps, leave and return to the water another day.

- [Know the Weather and Water Conditions](#)

Check the weather conditions before hitting the water. Swimming in the rain is unsafe, mainly if there is thunder and lightning.

- [Never Swim Alone](#)

When you head out into the open water, go with a "swim buddy," someone looking out for you and who you're looking out for.

- [No Alcohol](#)

Alcohol affects your perception of danger, making you more likely to take unnecessary risks. Alcohol also impairs your balance and coordination.

- [Wear an Approved Life Vest](#)

Young children, weak swimmers, and everybody should wear life jackets whenever they are in, on, or around the water.

CAMPUS SECURITY STATISTICS MAY 2025

Suspicious

It is essential that the university community is comfortable and feels safe when spending time on campus. Security Services responds to reports of suspicious people and vehicles on campus.

Responded to 26 Suspicious Calls

Safe Walk/Safe Ride

Safe Walk and Safe Ride is a free service in which Security Services staff will meet and walk you or give you a ride to/from your car, class, residence room, or bus stop. If you do not feel comfortable walking on campus, Security Services would be happy to assist you.

11 Safe Walks Completed / 34 Safe Rides Completed

Medical Emergencies

Security Services responds to all medical emergencies on campus. Sometimes, Security Services staff are the first to respond to an emergency. They also play a key role in guiding the emergency responders to the correct building and room. **11 Medical Emergencies**

Parking Services

Security Services works closely with Parking Services at the University of Manitoba. Security Services staff helped Parking Services in the following way:
3 Calls for service

Access

Everyday Security Services helps students and staff who want access to buildings or rooms. Security Services staff must alter daily operations to assist with unscheduled door openings. **174 Unscheduled Access Requests**

Alarms

Security Services responds to all safety and security alarms on campus, for example, Fire, Code Blue, Elevator, Emergency Phones and Panic Alarms.

Response to 179 Alarms

University of Manitoba Fort Garry Campus - May 2025 Incidents
